2. EXECUTIVE COUNCIL

2-1 Responsibilities

The Executive Council has full authority over the affairs of the Association and performs the functions of the Association during the period between meetings of the membership. This authority does not include the power to rescind or modify official action taken by the Association.

Each member of the Executive Council shall serve as a representative of the PacFAA membership for the purpose of discussing issues and concerns brought before the Executive Council and contributing to the formation of policies and procedures of the Association.

PacFAA recognizes that it has a responsibility to respond to social and political issues that affect students and our membership. Therefore, Executive Council should respond, as it deems appropriate, to social and political issues brought to its attention by any member of the organization or by other parties whose primary focus is ensuring educational equity and access for all persons.

PacFAA also recognizes that its membership represents a diversity of political and social views. However, we believe that PacFAA has a moral obligation to those groups, which have traditionally been excluded from higher education. It is for this reason that the Executive Council should take specific action on issues, which threaten the concepts of educational equity and access, and/or issues, which discriminate on the basis of age, race, gender, sexual orientation, religion, color, national origin or disability.

2-2 Meetings

The bylaws require the Executive Council to meet during annual meetings of the Association. Regular meetings of the Council will be held at any place designated by the Executive Council. Special meetings of the Council may be called by the President or by petition of half plus one members of the Executive Council. A majority of the number of the Executive Council members as defined in the bylaws constitutes a quorum for the transaction of business. A majority is defined as one-half of the voters, plus one.

The Executive Council will typically meet at least 4 times per membership year. Traditionally, the meetings have taken place preceding or following the annual conference, with the final meeting preceding the annual conference.

Committee Chairpersons may or may not be invited to meetings as determined by the President, but may be asked to submit a written report whether they attend the meeting or not.

When voting takes place electronically between meetings, the results of the vote should be shared electronically with the Executive Council unless the information needs to remain private (for example an award winner determined that will be announced at a later date). The results should also be included in the next meetings minutes by the secretary, so that they are documented.

Meetings of members of the Executive Council shall be governed by some form of parliamentary procedure such as Robert’s Rules of Order.
2-3 Meeting Agenda

Meeting agendas will be prepared and distributed in advance of each meeting by the President. The President shall, to the extent possible, attempt to provide notification to the general membership of the date and place of Executive Council meetings. Agenda items may be submitted by any member of Executive Council and/or any PacFAA member to the President by a deadline established by the President.

Special meetings can be called by the Executive Council, the President, and petition by 5 members of the Executive Council or by 5% or more of the active members.

If a special meeting is called by members, the request must be in writing, specify the general nature of the business proposed, and must be delivered in person or by registered mail to the President, Vice President or Secretary. The bylaws in article IX, section 2b, specify the appropriate calendar for convening a special meeting. Additional procedures for special action by the membership are designated in article IX of the bylaws.
7-3 Quorum

A quorum consists of 20% of the active members of the Association.

7-4 Minutes

Written minutes of all meetings of the membership are the responsibility of the Secretary and should be provided to the membership in advance of their next meeting.

8. FISCAL POLICIES AND PROCEDURES

The Executive Council has overall authority and responsibility for managing the fiscal affairs of the Association.

The Executive Committee has delegated to the Budget Committee the responsibility to review and recommend actions having financial implications for the Association.

8-1 Budget

The Budget Committee will develop recommendations for each income and expense item in the budget, taking into account information from committees and other sources.

The Association operates with a balanced budget. For the purpose of budget planning, approved income and expenses must be equal. Any unallocated income should be held in a contingency line item in the “expense” section of the budget. Any transfer of Association assets needed to balance the budget must be shown as a line item in the Association’s operating budget in accordance with the pre-defined use of the Association’s asset reserves.

8-1-A Budget Development Process (for Budget Committee Guidance)

The President will prescribe the schedule for budget development in consultation with the Budget Committee. There are two separate budget processes that are performed by the Executive Council and Committee Chairs each year: one is the revision to the current year’s annual operating budget and the other is preparation for the new fiscal year’s annual budget.

The revised budget process occurs first and typically takes place during spring. This happens because the annual operating budget is in place when the incoming Executive Council and Committee Chairs begin their positions. This process allows for review and revision of the already existing annual operating budget.
The Budget Committee provides the annual operating budget to incoming Committee Chairs and Executive Council to use as a guide to determine the adequacy of the current year’s annual operating budget. Committee chairs receive a copy of the annual operating budget for their particular committee along with the prior committee’s budget prior to or at the annual Transition Meeting to help the Committee Chair in developing a more accurate budget based on the annual goals and priorities of the Committee. The Budget Committee is responsible for advising Executive Council regarding the impact of potential decisions and activities on the fiscal health of the Association.

The annual operating budget process occurs second and takes place during the fall.

An annual operating budget will prescribe the Schedule for budget development. An operating budget for the new fiscal year (May 1 through April 30) will be developed for approval at the fall meeting of the Executive Council. The operating budget must reflect the long-term priorities of the Association as well as the priorities of the President-Elect. To facilitate this effort, each Committee Chair is asked to submit a committee budget proposal for the new fiscal year that reflects the income and expenses of the Committee for the period from May 1st through April 30th. The President-Elect proposes an annual operating budget that is shared with the Budget Committee during its meeting when creating the proposed annual operating budget.

The Budget Committee has the authority to counter balance line item adjustments in the budget for up to $200 with the approval of all persons/committees involved in the transaction. Requests for such adjustments shall be submitted to and approved by the Budget Committee.

**Guidelines for developing specific line items within budgets**

*Revenues:*

It is generally understood that the Association must generate sufficient revenues to maintain the activities and fiscal health of the Association. Major revenue sources include, but are not limited to, the annual conference, training, and fund development.

The Budget Committee reviews and makes recommendations, in conjunction with the President, to ensure each project and committee proposal meets the overall mission and fiscal goals of the Association. Any concerns raised by the Budget Committee should be addressed prior to approval of a project or committee proposal.

1. Conference is expected to generate revenues in excess of expenses excluding membership dues and Fund Development activities, whenever possible. The President sets revenue goals in consultation with the Budget Committee and subsequently approved by Executive Council.
2. Training, as coordinated by the Training Committee, of the Association’s membership is one of its highest priorities. Therefore, individual training activities may be subsidized provided the Budget Committee identifies sufficient resources to cover expenses
related to such efforts.

3. Annual Membership Dues – Membership dues are constructed to support activities of the Association. Dues should be reviewed annually.

4. Fund Development – Fund Development efforts support the goals (long and short-term) of the Association. Fund Development targets are set by the Budget Committee and are recommended for approval by the Executive Council. The Budget Committee works in consultation with the President to ensure that the target is reasonable, feasible and adjusted as needed given the goals of the Association. Fund Development revenues are used to support the on-going activities of the Association.

Expenses:

All expenses related to Association work must be approved by the President or Committee Chair prior to being incurred as explained in Section 8-1B. Any expenses incurred that have not received prior approval are subject to cancellation or non-reimbursement. Appeals are made at the discretion of the President and must be provided to the Treasurer in writing prior to reimbursement. All reimbursements must be approved by the Committee Chair, if the Committee Chair is seeking reimbursement it must be approved by the President. No committee may exceed its allocated budget.

8-1-B Budget Development Process (Committee Chair Guidance)

The President will prescribe the schedule for budget development in consultation with the Budget Committee. There are two separate budget processes that are performed by the Budget Committee each year: One is the revision to the current year’s annual operating budget and the other is preparation for the new fiscal year’s annual operating budget.

The revised budget process occurs first and typically takes place during spring. This happens because the annual operating budget is in place when the incoming Executive Council and Committee Chairs begin their positions. This process allows for review and revision of the already existing annual operating budget.

Each incoming Committee Chair is responsible for submitting a revised budget during the spring to the Budget Committee. The President will provide guidance to committee chairs to assist in developing annual goals and budgets. Additionally, the chairs of the Budget Committee, will provide each committee chair with a budget request form, prior committee’s budget and other appropriate information prior to or at the annual Transition Meeting of the Association. Incoming Committee Chairs will be given the opportunity to submit a revised budget that reflects income and expenses projected from May 1 through April 30.

The annual operating budget process occurs second and takes place during the spring.
The Budget Committee provides an updated annual operating budget to Committee Chairs and Executive Council to use as a guide in submitting a proposed annual operating budget for the upcoming fiscal year (May 1 – April 30) during the spring. Committee chairs receive a copy of the annual operating budget for their particular committee to help develop a projected new fiscal year budget based on the annual goals and priorities of the Committee. The Budget Committee is responsible for advising Executive Council regarding the impact of potential decisions and activities on the fiscal health of the Association.

Requests for modifications to the official budget must be submitted to the Budget Committee who will then make recommendations to the Executive Council. No action may be taken by Committees without prior approval by the Executive Council. Absent any special multi-year contract, committee budget allocations not fully expended do not carry forward to the subsequent fiscal year.
